Commission received numerous telephone calls regarding damaged roads and bridges.

Commission checked Deer Trail Drive after a call stating the road was severely damaged. After seeing the road, the Commission agreed no repairs were needed on Deer Trail Drive.

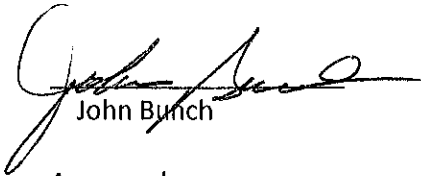

Keith Holloway met with the Commission to talk about Black Stock Bridge.

The Commission would like to remind all McDonald County residents that the Road and Bridge department is working as hard and fast as possible to repair all county bridges and roadways. What was destroyed overnight, could take months to restore. Through roads are our top priority because of the widespread damage to our county. Please be patient and remember to thank our county road and bridge department when you see them.
